Nasa High School Internship 2025 Summer Intern For Students

Description

Are you a high school student with a passion for science and space exploration? NASA's High School Internship Program offers you the chance to gain hands-on experience and be a part of groundbreaking research projects. The 2024 Summer Internship in Texas City is an excellent opportunity for students to explore their interests and learn from top-notch professionals.

Responsibilities

As a NASA High School Intern, you will work closely with scientists, engineers, and other professionals on exciting projects. Your responsibilities may include conducting experiments, collecting data, analyzing results, and presenting your findings to the team. You will also participate in workshops, seminars, and field trips to enhance your knowledge and skills.

Qualifications

To qualify for the NASA High School Internship, you must be a US citizen or permanent resident, currently enrolled in high school, and at least 16 years old at the time of application. You must also have a minimum GPA of 3.0 and demonstrate a strong interest in science, technology, engineering, or mathematics (STEM) fields. Previous research experience or participation in STEM-related extracurricular activities is preferred but not required.

Job Benefits

As a NASA High School Intern, you will receive a stipend to cover your expenses during the internship. You will also have access to state-of-the-art facilities, cutting-edge technology, and resources to support your research. You will work alongside experienced professionals who will mentor and guide you throughout the program. Additionally, you will have the opportunity to network with other interns and professionals in the industry, opening doors to future career opportunities.

Contacts
